

SKU: 165 FRAME J

For 13 – 15 HP Builds

Galvanised Steel

L 816 mm x W 489 mm x H 867 mm

Features

- The J Frame is made from pipe, not tube, making it indestructible
- Galvanized with solid pipe construction
- Some competitor frames are made in a stainless tube as this is cheaper to manufacture but is more brittle and subject to cracking when subject to vibration
