

SKU: 220 CH22/400

Pressure - 5800 psi
Flow - 22 L/min
Speed - 1000 RPM

Features

- Pump body: anodized aluminium alloy
- Symmetric crankcase featuring top and bottom fixing for easy right to left shaft conversion
- Head: stainless steel
- Camshaft: steel
- Splash lubrication
- Shaft support bearings oversized for long duration
- Connecting rods: special anti-friction light alloy
- Guiding piston: stainless steel
- Solid ceramic plungers
- Suction/delivery valves in stainless steel
- Seals: high dependability
- Versions in direct drive mount with shaft positionable on the right or left or through shaft.

Specifications

- **HPP Model** - CH 22/400
- **HPP Code** - 6916 0005
- **Speed** - 1000 RPM
- **Flow** - 22 L/min
- **Pressure** - 5800 psi
- **Power** - 23.4 hp
- **Max Inlet Pressure** - 43.5 psi
- **Oil Capacity** - 2.51 L 15W 40
- **Weight** - 29 kg

Options

1. Double shaft version available on request
