

WARTHOG NOZZLE 5000 PSI CUSTOM JETTED WITH R30 HEAD

SKU: 165 WARTHOG WT 3/8 R30 X

19-26 L/min
3/8" BSPP Inlet
3 x 1/8" NPT Nozzle Ports

Features

Our smaller WT 3/8 Classic series Warthog models can negotiate elbows and clean-outs commonly found in laterals in homes, buildings, restaurants and other light commercial facilities. This tool is most commonly used on mobile jetters to 5,000 Psi.

Also an excellent choice for cutting roots, clearing ice and removing blockages, the WT-3/8-C is designed specifically to handle 3"-6" lines and clean-outs.

- Controlled rotation — Slower dwell time allows jets to penetrate deeper through deposits
- Multiple head options — Customize tool for unplugging, descaling or manhole cleaning
- Highest quality jets — Hardened stainless steel orifices resist cracking and scratching
- Optional descaling head available
- Go to Nozzle Calculator:
