

TANK CLEANER

The new Mosmatic tank cleaner combines innovation and precision. Made entirely of stainless steel, the Mosmatic tank cleaner is suitable for both automated and manual cleaning of tanks and containers of all kinds. Thanks to innovative technology, the rotation speed can be easily adjusted to match the pump's performance. Equipped with Mosmatic's proven stabilizer nozzles, it ensures effective cleaning even over longer distances. Powered solely by hydraulic water pressure, the Mosmatic tank cleaner delivers a thorough 360-degree cleaning.

FEATURES

Infinitely variable speed control

The speed can be adjusted quickly and easily by loosening just one screw.

Drive angle

The tank cleaner is available with a drive angle of 20° or 45°, optimally tailored to individual needs.

Proven Mosmatic hard metal sealing system

The carbide seal system guarantees long lasting operation under tough conditions.

- ✓ 360° internal cleaning
- ✓ 100% stainless steel (INOX) construction
- ✓ Infinitely variable speed control
- ✓ Integrated magnetic brake
- ✓ Maintenance-free
- ✓ Self-rotating

TECHNICAL DATA

Pressure	200 bar (2900 psi)
Temperature	120°C (250°F)
RPM	max. 60 rpm (Main axis)
Nominal width	9 (3/8")
Throughput medium	ph 3 - 12

TAR

Name	Part No.	Inlet	Drive angle X	Weight	Flow rate	D1	Insert Nozzle
TAR-09	101.122	G1/2" F	45°	6.8 kg	15-50 l/min	121 mm	--- *
TAR-09	101.172	G1/2" F	20°	6.8 kg	50-100 l/min	131 mm	--- *
TAR-09	101.622	1/2" NPTF	45°	15 lbs	4-13 gpm	4.76"	--- *
TAR-09	101.672	1/2" NPTF	20°	15 lbs	13-26 gpm	5.16"	--- *

* Requires 2x EG nozzles, please order separately

Accessories

	Name	Part No.	Description	Quantity
1	Nozzle holder	906.243	For EG nozzles without extension	1x
2	Nozzle holder	906.135	1/4" NPTF for standard nozzles or stabilizer nozzles 14.901	1x
3	Nozzle holder	906.139	For EG nozzles with extension	1x
4	Nozzle cap	906.122	for closing unused connections	1x
5	Nozzle seal	906.138	Sealing insert in nozzle holder	1x
	O-ring replacement set	906.419	O-Ring ø10x1.5	10x
